PROFESSIONAL SUMMARY

Senior Flutter Developer with 5+ years of experience building scalable Android and iOS applications using Flutter, Dart, Firebase, Java, and REST APIs. Experienced in AI integrations, chatbot systems, recommendation engines, CI/CD pipelines, and mobile performance optimization with a strong focus on delivering secure, production-ready applications in Agile environments.

TECHNICAL SKILLS

Mobile Development: Flutter, Dart, Firebase, REST APIs, Java, React Native, JavaScript

Architecture: MVVM, MVC, Bloc

Backend & Cloud: Firebase, REST APIs, CI/CD

AI Features: Chatbot Integration, Smart Search, Recommendation Systems, Predictive Workflows, OpenAI API

Tools: Android Studio, VS Code, Git

PROFESSIONAL EXPERIENCE

Tech Mahindra | Senior Software Engineer | Noida (Oct 2021 – Oct 2024)

- Developed scalable Flutter mobile applications for Android and iOS platforms.
- Integrated REST APIs, Firebase, and AI-powered recommendation workflows.
- Improved application responsiveness and UI performance through optimized state management and efficient API handling.
- Supported production deployment processes and application updates for Android platforms.
- Collaborated with QA and backend teams for secure production deployments.

ADG Online Solutions | Flutter Developer (Feb 2021 – Oct 2021)

- Built cross-platform Flutter applications with REST API integration.
- Automated deployment pipelines and improved release efficiency.
- Worked closely with QA teams to ensure stable application releases.

Simran Software Solutions | Mobile App Developer (Oct 2019 – Jan 2021)

- Designed Android application UI and integrated push notifications.
- Assisted in testing, debugging, and deployment activities.

PROJECTS

AI Assistant App | Flutter, OpenAI API

- Developed AI chatbot application with real-time conversational UI.
- Integrated OpenAI APIs with secure token and response handling.

Marketplace Project

- Implemented smart recommendation systems and advanced product search.
- Improved user engagement using personalized notification workflows.

Labour Bureau Project

- Built intelligent validation and offline synchronization workflows.
- Developed structured analytics-ready reporting pipelines.

EDUCATION

Master of Computer Applications (MCA) – MDU | 2018

Bachelor of Computer Applications (BCA) – MDU | 2016
